EDUCATION, IN THE ESTIMATES. Nearly five months ago, at the commence ment of the present session of the Legisla-tive Assembly, the honorable member for Calls not to exceed \$5 per Share, not to be made at less intervals than one month. Lake district moved for and obtained a Committee on Education, consisting of himself and Messrs. Tolmie, Street, Powell, and Carswell. Apparently the honorable gentleman is satisfied that he had performed the full measure of his duty by this act, as neither he, nor in fact, any of the members of the committee, have given themselves the slightest further trouble in the matter. The consequence is that the House of Assembly now finds itself compelled to take up the subject, and to say whether it shall vote \$5000 of the public money for educations purposes, without having any adequate in formation as to the requirements of the col ony, the amount of money necessary, and the most advisable mode of distributing the to lay the whole blame on the shoulders of the committee, as eveny one of the present members of the House faithfully promised their constituents, in their public addresses, to give the subject of education their earnest attention. How they have kept their prom ises, so far, is patent to the public, and we can hope that when the question up in the committee on Supply, which it must do in a few days, they will endeavor to alone for past neglect by present action and careful deliberation. It is not necessary to theorize on the subject-its general importance is a selfevident truth; what now is to be done is to take up the practical view-to say, how much shall we vote, and how, when, and where shall it be applied? As to the amount asked for in the estimates, there is probably little difference of opinion as to its correct ness; for the population of this colony, and the comparatively small number of children included therein, the sum of \$5,000 is per-haps a very fair allowance for educational purposes, and there is not the slightest doubt that with that amount a very great deal of good may be effected. But its distribution will require the most careful consideration and it is on this point that the apportionments, as laid down in the estimates, are open to much and strong animadversion. We find that of the \$5,000 asked for, the educational sections of Victoria, Craigflower, and Nanaimo get \$1000 each, and the districts of Esquimalt, Saanich, Cedar Hill, and Lake get \$500 each, while the city of Victoria, which contributes nine-tenths of the taxes, and contains at least four-fifths of the children in the colony, gets nothing! To be sure the Victoria District School is so close to the city that it may answer the purpose of a city school, but what facilities does it afford to the children residing in the greater part of the disrict, for whom it is supposed to be intended?
The apportionment for Nanaimo, with its 120 or 130 children, is doubtless called for, but that of a similar amount for Craigflower, with a school roll of 10 to 15 pupils, is most manifestly excessive, particularly when we find Esquimalt with 40 or 50 children, and Saanich with from 25 to 30, set down for only \$500. In fact the whole system of school management as at present existing in the colony is worse than useless; not only is the money expended in the most ill-judged manuer, but there is no guarantee wha ever that the public receive an adequate return; indeed, the contrary seems to be the ease. Instead of the question of education being kept prominently before the community, and receiving that share of general attention and interest its importance demands, it is almost entirely ignored; if there be an eswe are led to infer from the item in the Estimates, its doings are not thought to be matters in which the public has any concern, and no opportunity is afforded them to express a feeling of interest in the subject. What we want here is some regular system for the managemen of a matter of more than national importance. We want a Colonial Board of Education, or Council of Public Instruction, whose duty it shall be to devote special care to the educational interests of the country; we want school superintendents, who shall ex-ercise an active and regular inspection over the establishments which are in the receipt of the public money; we want boards of trus-

The Antler Bed-rock Flume Company (Limit), has been organized for the purpose of work

A Lease for 10 years has been given by the Government of British Columbia direct to the Government of British Columbia direct to the "Antifer Bed rock Flume Company" (Limited.) 200 Shares have been reserved, to be disposed of by the Directors hereafter for the benefit of the Company as circumstances may determine. It is centidently believed by experienced miners that the Bed-rock Flume system will werk an entire revolution in the mining operation of Cariboo, and render large districts available which under the present system are valueless. Great excitement was caused in 1861 by the rich eleposits of gold found on Antier Creek; much ground yielded over \$1,000 per foot. It was found, however, that except where the soil was shallow, it was impossible to reach the bed-rock and work to advantage, on account of the immense amount of water and the looseness of the soil, consequently the Creek gradually became abandoned. The amount of water and character of the soil are highly favorable for hydraulic working, while the fall in the Creek renders it most suitable for a Bed-rock Flume.

The soil on Antler Creek contains gold generally

afternoon at about 2 o'clock, the alarm bell of the Union Hook & Ladder Company quickly brought every one into the streets, and the stream set down in the direction of Reid & McDenald's brick block, on Wharf atteet, where the Hook & Ladder Company's truck had been already stationed with the most commendable alacrity and the firemen at work forcing an entrance through the winder. of the Union Hook & Ladder Company truck had been already stationed with the most commendable alacrity and the firement at work forcing an entrance through the windows of Attorney General Cary's office, whence a dense volume of smoke issued, whence a dense volume of smoke issued.

Mr. Dennes said that the fees of the new court would more than pay all expenses. Some buckets of water were speedily suppsied and in the course of a few minutes the fire was subdued. It originated in a wooden box containing coal which stood near the stove. Mr. Cary had been engaged in court all day, and those in the adjoining office during the forencon experienced a strong smell of smoke, but suspected nothing. Shortly before two o'clock a young man while passing Mr. Jary's door, detected smoke issuing from the crevices, and placing his car to the key-hcle, heard a cracking noise inside which satisfied him that something was wrong, and an alarm was consequently raised in time to save the valuable premises from injury. Littate damage was done beyond the breaking of the windlows.

Mr. Durant seed known that the greatest inconven call the colony. He had been all the store to benefit the stutted simply by a desire to benefit the public in bringing up this bill.

Mr. Bayley disapproved of the principle of the bill.

Dr. Tollmic said that the bill only provided to court twas wanted in the country; he stronged was studied him that something was wrong, and an alarm was consequently raised in time to save the valuable premises from injury. Littate and the windlows.

THEATRE. - Shakespeare's noble tragedy Hamlet, was performed last night before a large and respectable audience. Mr. Taylor enacted the Prince of Denmark with a degree of pathos and power exceeding anything which we have yet seen him display, and was most deservedly applauded throughout each act. Miss Virginia Howard, by the highly pleasing and truthful manner in which she rendered Ophelia, gave eyidence of having recovered from her late severe indisposition. She was warmly received by the audience. She was warmly received by the audiente.

Of the rest of the more prominent characters we may say that Mr. A. R. Phelps, Mr.
Potter, Mr. Townsend, Miss Belle Douglas and Mr. Tomlinson, ica first grave digger) acquitted themselves with much credit, and acquitted themselves with much credit, and severally received their share of applause. At the fall of the curtain, Mr. Tomlinson (the beneficiary) was called forward and briefly thanked the audience for their attendance. The sereaming Protean farce of "A Day after the Fair," produced excessive fun. Miss Fanny Morgan, Mr. Tomlinson, Mr. Myers, Mr. Potter and others, by their clever drolleries, succeeded in sending the audience home with aching sides.

THE TURE -A race between Mr. Ward's mare and Mr. Clark's, for \$250 a side, will come off on the Beacon Hill course to-day at 2 o'clock. The race is likely to be an in teresting one, from the known speed of the animals, and the fact that upwards of \$500 as ide has been staked outside.

WAGES SUITS .- John Stephens, Thos. and Nicholas Richards severally obtained judgment by default yesterday in the Police Court against John Dunstan for \$40, \$48 50, and \$48 50, for wages due for work and labor performed by them at Goldstream.

AGROUND .- The schooner Flying Mist in leaving the harbor yesterday, grounded on the bar off Ogden point.

MR. POTTER'S BENEFIT .- Don't forget the veteran Potter's benefit to night, " Merchant of Venice" and "Knight of Arva."

CEASED TO EXIST .- The Portland Daily Times ceased to exist on the 9th instant, from want of sufficient patronage. ARRIVAL OF THE ENTERPRISE.

The steamer Enterprise arrived yesterday rom New Westminster, with 24 passenge and a small amount of gold by Dietz and

Nelson's Express. From Dr. Black, M. L. C., of British Columbia, William Collins, and William Nathan, who left Williams Creek on the 2nd instant, we have the following intelligence :

WEATHER. The weather generally had been mild, Beyond Alexandria, sleighing was being arried on.

Between Alexandria and the Junction there was no sleighing, the snow having thawed and left the road very muddy and bad to travel.

The only claim now paying on Williams Creek is the Caledonia, which was doing

well.

The other claims working are the Aurora the Burn's Tunnel, in conjunction with the Black Jack Company, which were taking out some little pay; also the Eureka; Foun-tain-Head, and Vaughan and Company, ad-

enjoying themselves. FALSE REPRESENTATIONS.

Our informants state that the representations which have been made regarding the prospects recently obtained by some of the claims are without foundation and calculated to do considerable mischief. The only claim 1946 00 to do considerable mischief. The only claim which has been working to advantage is the Caledonia. The last day's washing of this company produced 100 ounces.

The prospects of Cariboo this season are in the general estimation of miners, considered better than they were last year. Provisions were plentiful on Williams Creek, except bacon which was ruling at \$1 25: butter very scarce at \$3; coal oil not to be had.

NEW STRIKES.

A very fair prospect has been struck on McCarthy's Gulch, below Cameroutown. Also a prospect of one to two "bits" to the Canadian Creek, about six miles pan on Canadian C from Williams Creek.

HOUSE OF ASSEMBLY.

MANDAY Feb. 16th. House met at 3:15 p. m. Members present-- Messrs. Young, Tolmie, DeCosmos, Powell, Street, Duncan, Bayley, Dennes.

CORONER'S FEES.

Mr. Street moved for returns from the coroner of V. I., showing all moneys passing through his hands as fees and other expenses for the year 1863.

for the year 1863.

Mr. Young said he had gone over the various fees, &c. passing through the corer's hands, in anticipation of this motion, and was in a position to give very nearly all the information the hon, mover desired. The whole amount passing through the poroner's hands for 1803 was \$923 12.

Mr. Street said he would be quite satisfied with the statement of the hon. Colonial Secretary, and would withdraw his motion.

CHIEF JUSTICE.

The motion passed by the committee of the whole, praying His Excellency to request the Duke of Newcastle to appoint an English common law Barrister as Chief Justice, was adopted by the House. HARBOR DEFENCES.

The report of the Committee on Harbon Defences (lately published in our columns) was adopted by the House.

RESOLUTIONS ON THE CIVIL LIST.

Dr. Trimble's notice of motion to stay the sending home of the resolutions praying for one civil list which were lately adopted by the House, till further discussion, was postponed owing to the absence of the hon. The Speaker said this showed the import

ance attached to the motion.

"Mr. Bayley disapproved of the principle of the bill.

Dr. Tolmie said that the bill only provided a court for Victoria; he believed that no such court was wanted in the country; he thought we should discourage litigation as much as possible, although some of his hone to lead to be such that the country is the believed that no such that the country is the country.

Mr. DeCosmos did not see why the bill should be withdrawn.

Mr. Young also opposed the withdrawal of

the bill. He thought the County Court law of England, so far as applicable to this of England, so far as applicable to this country, might advantageously be followed.

Dr. Helmcken did not see the use of reporting progress on this bill; it was only wasting time, and the session had lasted too long already. So far as the rural districts are concerned, they do not want such a measure as this, and it would be only encouraging litigation, which was a great evil. People were perfectly happy where there are no lawyers. (laughter.)

By this deed Macdonald handed over to Green the right to the charter, in consideration of his having ono.twentieth part in a company which was not to have liess capital than \$25,000. Mr. Green then got into communication with government: there was great delay. Eventually, other chapters were granted on the Lilloost and Lytton routes, and some of our principal supporters left us. In January, 1802, I went to San Francisco, where I became acquaint ed with several influential men of business, amonation that the was managing Flint t. Holiday's business. The Court rose at one o'clock. At two, on reassembling, Mr. Cooper, one of the special jury men was absent, and did not reach the Court until about twenty minutes after two. Before Mr. Carv's examination proceeded, Joseph Lynes was called and examined by Mr. Hing. I know the route bethe Bentinek Arm and Franer fiver. I met Mr. Hood when he was on the line: this was the first time I went over the fine. Inc. this was the first time I went over the fine. Cross-examined by Mr. Wood.

I came back in September. I found the trail improved in parts: there was a trail by the side of the Bejra Coola river. The trail was not very bad. Mr. Green told me that Hood wished to join our undertaking; I showed him Fint's letter, and subsequently he saw these gentlemen. Whe had

Mr. Gary's examination continued:

Mr. Green told me that Hood wished to join our undertaking; I showed him Flint's letter, and subsequently he saw these gentlemen, who had been associated with us and with a view to breaking off our engagements with them. I think it was about 21st or 22d June that I was unable to leave my house from litness, and Green came up on the 22d and informed me that Hood had called upon him and asked him to explain the position of the project we had it; hand. Green said that he thought Hood would be a good man to take the matter in hand, he had beard that he had unade a good many roads in California. I expressed my dislike to placing the matter in the hands of a person of whom I knew nothing, and I said I would see Hood. Mr. Green and myself had made up our minds to go through with this route Mr. Ring put a leading question as to what Cary had intended to do, to which Mr. Wood objected saying that the question was improper. Mr. Gray said it was quite unnecessary for his counset to lead him.

I told Green to bring all the documents with kim when he brought! Hood. Shortly afterwards Green and Hood came; Green infroduced Hood and I requested Green to read the agreement between himsoli and R. Maedonald to Hood, which he did, as also the agreement for the other read through.

Mr. Aing As an agreement of integral Mr. Wood objected to this as a leading and suggestive question.

Winess—I recollect distinctly stopping Green a he went along and explaining the matter to Hood; I did so because I head he was desirous of closing the matter immediately. The reading

Mr. Wood.—This I understand was after the action was commenced?

Witness —Certainly,
Mr. Wood.—Then I object to it.
An argument ensued upon this, and His Lord-ship ultimately decided that Mr. Cary might read a memorandum which was proposed as a basis of set-tlement of matters in difference, although it was headed without prejudios. Mr. Cary continued. Nothing was done upon this memorandum; when Hood came down I told him I would make the application for a charter, but it must be done in a business like manuer.

Hood came down I told min! would make the application for a charter, but it must be done in a business like manuer.

Mr. Ring.—Did anything occur when you had your first interview respecting the possibility or imposibility of making the road?

Mr. Wood objected to this as a leading question put to refresa the witnesses! memory.

Mr. Ring and Mr. McCreight argued upon this point, and Mr. Cavy proceeded with his evidence; I told Hood that I must have a copy of Mr. Waddington's charter and would alter it accordingly to the requirements of the Bentinek Arm; I got a copy of this charter, prepared a new one, and wrote with it; Hood signed the letter and received a reply which was favorable, the letter was read; Hood showed me the original letter; I then told Hood that I had made a hunder in giving him power only to levy one toll for a ferry over the Penser river whereas there ought to have one a ferry over the Bella Coolariver; I rectified this error and got Hood to write to the Coionial Secretary, accepting 3 cents as a maximum instead of coasts. Hood trainised to make the same arrange. error and got Hood to write to the Coionial Secretary, accepting 3 cents as a maximum instead of Scents; Hood promised to make the same arrange ments as he had made before with regard to Green's and my interest except that we were to have one fourth instead of one third.

FOURTH DAY.

The court sat 10 o'clock, but Mr. Cary, the witness under examination, did not arrive until II and the court and jury were kept waiting until Mr. Cary's examination continued. Mr. Hood

Mr. 14118.—Tou speak.

Mr. Cary.—The action was commenced long before the period of which I am now speaking; it was a breach of contract into which Hood had entered with the company. Mr. Cary then said the agreement which has already been referred to, and which is made between Edward Green on his own behalf and acting for the company and Wm Hood, details the arrangements made for the construction of the read.

For the brench of this agreement an action was commenced in the spring of 1893, when Hood asked me to get him a new charter; I told him I was anxious to do so and have done with the suit, this was in November.

There were directors, the first seven share-holders were the directors. Hensly, my clerk, was one. Mr. Drake was another. They met as directors; they did not act un-der my instructions. Hood was aware of this meeting being held. I took oze to bind Hood tightly; I thought it necessary to

company to pay him for his services; he never did so. I do not know whether the road is blazed from Bentinck Arm to Mouth of Quesnelle or not.

The subsequent negotiations with the government on behalf of Hood were with reference to a new charter entitedy. The agreement about the land was that Green should surrender to Hood one; thirteenth part of the surrender to Hoad one-thirteenth part of the shares in the land. Hoad never refused to make the road; the time expired on the 4th of April and the writ was issued in May.

By the court—Feeling yourself so deeply interested in this matter did it not strike interested in this matter did it not sirk you that reflections might be made on you as registering this company when you were the party interested.

By the Court-You have told us that you yourself were principally interested in this company—did you not feel that the public hereafter would be apt to remark on your

hereafter would be apt to remark on your act in registering the company in which you were so greatly interested?

Ans.—I repeat, that having no judicial authority, but simply ministerial, I had no choice but to register the company.

Tomphins repalled—I am a packer; I have about 100 animals; I offered last spring to make a packing trail for \$30,000; I made the offer to Scott the packer at Lilleett; I have been in British Columbia since 1858; I have not been packing all that time, I think it this road were made, about two-thirds of the traffle would go that way; it is the best and cheapest reute; there are not as many transshipment as on the other road.

Cross-examined—I undertook to make a trail to pack on from Bentinek Arm to

Mr. Cary's examination continued. All the hen returned to my office.
Mr. Ring.—You spoke of having threatened thood with an action, will you tell the court what action was?
Mr. Cary.—The action was commenced long before the period of which I am now speaking; it was a breach of contract into which Hood had on the second of the contract into the By a Juror.—Which do you consider the worst slide, on the Beatinck Arm, or on the Lytton route?

Ans:—I do not know of my own know-

ledge.
Ranald Macdonald called and examined by

Mr. Ring—I first went over the Bentinck Arm route in 1861. I went from the Bona-parte with Mr. Burnstone. We went to ex-plore the country. We lell in with Tomkins and Pierson. We had about nine horses of a Kridence, it is show that it was unaccessary for the term "without prejudice" to he expressed it was clear, that learned counsel said, that this attempt at compromise was made in order to avoid the suit being proceeded with and were virtually without prejudice.

Mr. Ring and Mr. McCreight argued that the evidence was attmassible, and Mr. Cary followed in argument from the winers box.

His Lordship ruled that the evidence was inadmissible.

Mr. Ring.—Then do I understand that your Lordship rules that I cannot give evidence of an independent fact to rebut the plea of fraud.

Mr. Cary.—Then my mouth is closed, Mr. Hood refused to sign the compromise.

Mr. Wood —If your Lordship has decided surely there out to be an end of the matter.

The Chief Justice.—I must distinctly rule that the objection taken by the counts of the defendant is good. Examination continued by Mr. MoCreight.

Mr. Wood objected to the junior counsel examining the witness.

His Honor decided that one counsel only should examine the witness.

Mr. McCreight pursued his examination, and fides.

Mr. Ring read an extract of law on the

ubject.
Witness continued -- I had some conversa-

road, but have seen a good deal of it. I could not have carried out this road by myself, but I might have done so in conjunction with others. I don't know how much merchandize Hoed's train carried. When I applied for the charter I thought I could do it in three months; the government gave me one year. I could easily have selected a line between the 25th of June and the 31st of July. I could have lot the water on the Sister of July. I don't know that envone who name never been over the road before could do so be might have got help to explore the route.

Court adjourned to 10 o'ctock this day.

Lleving summary of new

We take the following summary of news

public attention throughout the colony during the month, almost to the exclusion of every other topic. Immediately after the depart-ure of the September mail the first public ure of the September until the first public demonstration against the recommendation of the Buglish commissioners took place in St. George's Mall. On the platform were many of the leading members of the community—legal, clerical and lay—and several who took a prominent part in the league which was charged with the duty of opposing the landing of the convicts who arrived in the bay in 1849, during the superintendency of Mr. La Trobe. Within a few hours afterwards an anti-transportation league was formed, the list of members of which may be said now to comprise the name of every person in the community of any standing.

Sympathy with Poland—A very large

SYMPATHY WITH POLAND.—A very large and enthusiastic meeting was held recently at the Bridge-house Hotel, Southwark, to express sympathy with the cause of Poland. Mr. Locke, one of the borough members, presided. Resolutions, claiming for the insurgent Poles a recognition of belligerent rights, and declaring that the Czar of Russia possessed no legitimate rights of domination. ARE INSTRUCTED BY DIRECTION OF THE rights, and declaring that the Czar of Russia possessed no legitimator rights of domination over Poland, were proposed and unanimously adopted. A strong feeling was manifested in several of the speeches and in the meeting that something more than was claimed by the resolutions ought to be done by England, and the suggestion of a war in behalf of Poland called forth vooiferous cheering. HOLLOWAY'S PILLS. All Disorders affecting the Liver, Stomach, and Bowels.

Weakness and Dehillty, Nervous Irrita-

The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a plant of the property of Regain Health, Strength, and Vigor. Whenever persons find themselves in that state termed "a little out of health," and there are so many causes at work to shorten lile, it is necessary that Hollowsy's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary magner.

Ad Coughs, Colds, and Asthmatical Affections.

These Pills, assisted in their ration by rubbing Holloway's Ointment very effectively twice a day upon the throat and chest, and keeping those parts overed with the preparation, will be found the most effective remedy for ashma, coughs, colds, but the preparation of the property of the
